Copyright Thermal Protection Services 2019, All Rights Reserved. Prices subject to change without notice. Price does not include the cost of shipping or any applicable taxes. All rebuild orders are subject to a \$150 core charge applied to each bottle. All returned bottles are inspected for inside diameter, pitting, and external damage that may render the bottle unusable. In the event is a bottle is found to be unusable, an inspection failure notice will be sent to the customer and the core charge will be applied to the final invoice. Bottles passing inspection will be credited the core charge noted above. All questions regarding the bottle rebuild program should be directed to orders@thermalprotectionservices.com or call 833-433-3473.
